

THE BUSINESS TOOLKIT

AccessRM
Risk Management

The ultimate resource, for all your business needs

The need for organisations to demonstrate effective corporate governance and risk management is ever growing. Mounting governmental red tape, increasing demands for legislative and regulatory compliance, as well as a trend towards litigation, all place immense strain upon the business manager.

The need to find a cost effective solution to address these pressures and add value to the organisation has never been greater.

The Business Toolkit makes it easy:

- Compliant HR and Health & Safety documentation can be seamlessly created and distributed
- Employment and Health & Safety risk can be simply controlled, monitored and recorded
- Employee Management Database, Reference Centre, News Bulletin Service, Knowledge Centre, Diary, Activities, Task Setting, HR and Health & Safety Document Centres, Inventory and Supplier Management, and Customer Contact Database can all be accessed through one point of reference
- All information created, or uploaded, onto the system is tracked and stored within a secure on-line platform to provide a complete, auditable, disaster recovery solution
- Users can purchase additional consultancy and advisory services at discounted rates
- The modular structure allows for complete flexibility of service and unique customisation capabilities to ensure an ideal solution for relevant organisations

Save Time

- All compliance, risk management and corporate governance requirements are accessed through one platform for ease of reference
- There is no longer any need to continually update documentation as all documents are automatically updated, whenever the law changes
- Any changes or amendments to legislation are highlighted and explained through the News Bulletin Service
- Lengthy business processes can be streamlined and simplified through the use of unique Electronic Data Interchange and Customer Relationship Management technology

Save Money

- Access a whole library of Health & Safety and HR documentation and resources
- Avoid expenditure on the recovery of information in the event of disaster, as all information is safely stored within the platform
- Avoid costly fines for non-compliance and reduce the risk of expensive litigation proceedings
- Benefit from the free communication platform, News Bulletin and Quarterly Newsletter Service
- Access to expert consultancy and advisory services
